Patient Instructions for Dental Appointment

Unfortunately, your dental appointment will not be business as usual. Our team will make every effort to make your appointment safe and comfortable during these uncertain times. Same friendly faces, minus the hugs and beverages.

1. We will call you to setup and confirm an appointment time that is appropriate.
2. Go to our website @LifeSmilesnewhope.com then go to the patient resources tab. In order to reduce contamination risk, **we prefer that all forms that pertain to you MUST be completed online**. Only if necessary, you may print out, complete, and bring paper copies with you to your appointment.
3. **Only the patient will be allowed into the office** unless the patient is a minor. If you bring additional people, they will have to remain in your vehicle. **This includes siblings of minor patients.**
4. Please **ARRIVE ON TIME** as our new safety protocols require us to minimize contact between patients. If you are late, you will be rescheduled.
5. Upon arriving at the office, remain in your vehicle and call **770-445-1314**.
6. A team member will come to your vehicle, take your vitals, collect your paperwork, and escort you into the office.
7. You will go directly into a treatment room and will be escorted out when your treatment is completed.
